

Be there! Corfu Animation Festival organizes a special program for children at the time of the festival, and screens specific animated films, suitable for children.

It also cooperates with invited guests and the educational community organises a special educational program in the mornings during the festival. The festival aims for kids to build and enjoy a first contact with the art of animation, while exercising a creative game.

The 2015 programme (schools only) starts on **Monday, 5th October** and continues for the whole week. To learn how to participate, email:
