

As a small homage to the comics of our childhood, and one of the first puppet-animated TV series in Greece, Be there! selected and presents 3 episodes of the favourite show of both children and adults, **Fruitopia**. The inspired and exceptional writer of children's books Eugene Trivizas as well as the imaginative viewpoint of the cartoonist Nikos Maroulakis are responsible for the comic book.

3 series were completed with 50 episodes each. The comic book was swiftly adapted in 1995 for Greek TV (ERT). The Sofianou family undertook to animate the material in 47 episodes, enjoying great success.
