With materials such as wire, plastic, cork, pieces of fabric, buttons, shells, beads, ribbons, string, bottles, ornaments, toys, pieces of glass, aluminum cans, guests are invited to create a small personal project or to participate in a larger group. These compounds are made with glue, hot melt, pins or nails. Participants are invited to bring their materials from home.

On the bench, there will be things to use and artists will help with ideas and associations of materials. It is essential for everyone to bring junk from for this is the philosophy of such constructions, to reuse, not throw away our garbage so easily.

For "trash is someone else's treasure"!
